

The ICE and DBIA invite you to a talk on:

“Design Build Done Right; The Nova Southeastern University Coral Reef Research Center”

By: Brett Atkinson, Travis Serpas,
Russell Anderson (Moss Miller JV),
Roland Lemke (Cannon Design)

ABSTRACT: The project team will explain why this won **Best Design Build Project** of the year in Florida. This high tech facility is dedicated to coral reef ecosystem research and was funded in part by a \$15 million stimulus grant. Onerous funding requirements, including completing design and construction within 13 months, meant Design Build was the only solution.

Date and Time

Thursday 24th January 2013

6:00pm for a 6:30pm start (1 hour lecture)

Venue

Cannon Design (11th Floor)
360 Madison Avenue (at 45th Street)
New York, NY 10017
(Near Grand Central Terminal)

RSVP by Tuesday 22nd January 2013

to Richard Giffen
