The ICE and ASCE Met Section Forensic Engineering Technical Group invite you to a talk on:

“Non-Destructive Evaluation (NDE) & Measured Building Survey (MBS): A Considered Approach to Assessment and Documentation”

By: CHARLES BRANSBY-ZACHARY

ABSTRACT:

NDE and MBS are rapidly becoming standard inclusions for most large scale project RFPs. Chas will use his 17 years of hands on experience and an exciting assortment of case studies to demonstrate available technologies, when to use them, how much they cost, and how to use the information provided. Project types will include advanced leak detection services, laser scanning and photogrammetry, impulse radar, metal detection, infrared thermal imaging, ultrasonics, impact echo and other inspection techniques.

Date and Time

Tuesday 20th January 2015
5:30pm to 7:30pm/

Venue

Arup, 77 Water Street
New York, NY 10005
